

## **Invasion Ecology: week 4**

### **Week 4: Homework**

**Due:** Thursday 11:59pm (for submission) and Sunday 11:59pm (for response), week 4

**Contribution to our class "bank" of invasive species:**

**1. Please use any internet resources to create a 0.5-page description (i.e. a card) of an aquatic invasive species of your choice.**

Your description should include 2-3 interesting ecological facts which you think a non-scientist would be curious to know. Critique from family members is welcome.

**2. Please submit your card by Thursday 11:59pm and post it in the discussion section. Then, please respond to one of the posts from your classmates by Sunday 11:59pm.**

Your response should include (a) the fact which you found to be the most unusual and (b) an example of other invasive species which has similar (or very close) ecological characteristic.
