

Invasion Ecology: week 9

Worksheet

Part I. What do you see? Please list all your thoughts in the provided space below (1-2 min).

Part II. The spotted lanternfly and its host plant associations.

- Please list 2 native and 2 novel host plants for the spotted lanternfly (1-2 min)
- Please compare your lists in pairs and create a combined list (1-2 min)

Native host plant	Novel host plant

Part III. Discussion in pairs. Why do introduced species fail to establish in a new range?

Please share your thoughts in the provided space below (~3 min):

Part IV. For your homework, you have read a systematic review on grasshopper feeding preferences. Please discuss it in pairs and then describe the preference metric used in this study.
